## Education

**Vellore Institute of Technology**

*B.Tech in Computer Science and Engineering - AI & ML (GPA: 8.18 / 10.00)*

2021-2025

Amaravati, AP

## Professional Summary

An aspiring Python developer with a passion for AI, full-stack development, and project management. Strong interest in leveraging technology to solve real-world problems and exploring business strategies to enhance project outcomes. A motivated learner with leadership qualities and a drive to excel in the tech and business domains.

## Projects

### 7 in 1 Multi Soil Sensor using Raspberry pi

- Provides real-time data on soil conditions (moisture, temperature, humidity, nutrients), helping farmers adjust irrigation and fertilizer use for better growth.
- Utilized Raspberry Pi to collect and process real-time data, providing automated insights to optimize irrigation and improve crop yield.

### Automated Waste Segregation System Using Arduino

- Automatically sorts waste into categories (biodegradable, non-biodegradable, and recyclable), streamlining the recycling process.
- Promotes sustainability by increasing recycling rates and decreasing environmental pollution.

### Automated Diagnosis of Diseases from 3D Medical Imaging Data

- Generates high-quality MRI-like images from CT scans, offering a non-invasive and cost-effective imaging alternative.
- 3D imaging provides more detailed and comprehensive views of organs and tissues compared to 2D scans.

## Skills

**Languages:** Python, Java(Basics), SQL

**Front-End Technologies:** HTML, CSS, JavaScript

**Area of Interest:** Full-Stack Development, Software Development, AI, Data Analytics, Business Analytics, Project Management, Entrepreneurship and Startups

**Soft Skills:** Problem Solving, AI Prompt Engineer, Leadership, Multitasking, Strategic and Analytical Thinking

## Certification

**GOOGLE CLOUD COMPUTING FOUNDATIONS** : Google Dec 2023

**AIR QUALITY INDEX (AI/ML):** Intrain Tech Mar 2024
